Notes:

- (1) With Computer Based Testing, Exam MFE/3F will be offered from April 19 - 25. The number of days to the exam is determined from the Monday of each week to 4/19.
- (2) Study schedule 1 starts in December and has a break built into the schedule. Students can adjust the timing of the break to fit their individual schedules, or use it as a week to review.
- (3) Study schedule 2 starts in early January. Due to the compressed nature of the second study schedule, students should also make sure to allocate enough time to review, especially during the last several weeks before the exam.
- (4) The suggested study schedules can be adjusted to each student's particular situation.
- (5) Students should take the opportunity to review whenever they get the chance. Reviewing includes memorizing formulas and working on areas of difficulty in the course of reading.
- (6) Students may want to work practice exams about a month before the exam. The last two weeks before the exam should be spent reviewing and working several practice exams. Students should save a few practice exams to work in the last two weeks before the exam.
- (7) Chapters 20 and 24 are very challenging for most students. Students should plan to allocate more time to these study weeks.
- (8) The ActuarialBrew.com MFE/3F Seminar in Chicago is April 15 - 18. The Online Seminar can be viewed anytime. Please visit www.actuarialbrew.com for more information regarding our MFE/3F seminars.
